

ISO-ACTIVE

rehydrates your body

MP3 ISO-ACTIVE is a refreshing isotonic thirst quencher, which rapidly replenishes fluid- and mineral levels and prevents diminishing performance levels caused by a lack of fluids. Because of its isotonic characteristics, fluids are absorbed faster in the body. Extra minerals create a proper balance of fluids in various parts of the body, such as the muscles, which allows you to exercise safely for longer periods. Drink 1 bottle of MP3 ISO-ACTIVE every 30 or 60 minutes, depending on the intensity of the exercise and weather conditions.

Available in two flavours: lemon and orange.

-  lemon
-  orange

SPORTWATER

hydrates your body

MP3 SPORTWATER is refreshing sports water, based on balanced spring water which rapidly restores the loss of fluids and minerals.

MP3 SPORTWATER is suitable for any sports person. During training a rapid decrease in fluids and minerals occurs. For optimal results it is important to replenish them as soon as possible. Drink MP3 SPORTWATER during exercise.

Also available in a refreshing lemon flavour.

-  natural
-  lemon

AQUA-ACTIVE

shape your body

DIET
0
Kcal

MP3 AQUA-ACTIVE is a fresh, 0-kcal sports water with L-carnitine which rapidly restores the loss of fluids and makes your body burn fat as a source of energy rather than carbohydrate deposits. With its firm L-Carnitine content (500 mg per bottle) MP3 AQUA-ACTIVE actively contributes to your diet. Drink MP3 AQUA-ACTIVE before and after exercise or during the day.

Available in three delicious flavours: Lemon, Orange and Apple.

-  lemon
-  orange
-  apple
